

Corinthian Capital Academy Base

325 EUR

Period : 19th century

Condition : Très bon état

Material : Other

Diameter : 45 cm

Height : 43 cm

Description

Born in Greece long ago and replicated throughout the centuries, the Corinthian style is timeless. Its magnificent base, made of plaster and marble dust, was a torture for the students of the Academy. They had to draw it freehand, respecting the proportions and volutes. All the convolutions of this Corinthian model dance across every face... The light plays upon it. It stands alone or can be used as a support base.
