Description

A very elegant beam lamp, reminiscent of an obelisk supporting a generously sized, cup-shaped bowl within a graceful draped canopy, this is a meticulously crafted decorative piece by a 1970s artist. Made with care and polished from beautiful pure pewter, this lovely ambient lamp has everything to please: its striking, grand, and architectural design, and the light diffused upwards by its generously sized, gracefully curved bowl. The pleated drapery plays its part in the overall effect of this large and attractive piece, which can create ambiance while simultaneously illuminating a piece of art on the wall from below. An elegant and unique spotlight for this piece, in excellent condition, in the Pompidou style.
