

## Wooden Statuette, St. John, 17th Century. France.

200 EUR

Period : 17th century

Condition : Très bon état

Material : Solid wood

Width : 6 à 8 cmsp

Height : 23 cms

### Description

An interesting and classic statuette representing St. John. He is beardless, as is almost always the case, and draped in a flowing cloak that falls elegantly around him. He has a very youthful face and shoulder-length hair. This is a wall-mounted statuette: the back is flat. It is fixed to a later base. Lightweight, it is in good condition, except for a few damaged fingers. France, 17th century.
