Description

Bentwood bistro chairs Suite of 7 grill back chairs with a classic shape and a beautiful patina. The seats are probably made of solid oak and the bentwood parts in beech wood. They have a warm finish and a rustic, authentic look. The seats are finished in a darker colour, creating a playful effect. The process of steam bending beech to create elegant chairs was discovered and developed by Thonet, but when its patents expired in 1869 many companies launched production. 39 cm wide, 40 cm deep and 85 cm high. Seat height is 47 cm. Wear consistent with age and use, one seating has a crack and another one misses a spine. Elegant craftsmanship of the 50s.
