Description

The wrought-iron base consists of three branches from which emerge the leaves and clusters of coin-shaped fruit. This plant is "honesty" or "money plant." The leaves and fruit rest on a flat, hexagonal base stamped with the word "coins." It has a thin wooden sole. At the top, three leaf-shaped legs support the Bohemian crystal lampshade, clear and blue, cut with floral and leaf motifs. A lighting system is attached. A lovely 1900s lamp in very good condition.
