

## Zoetrope After George Horner With 12 Animation Strips Circa 1850

380 EUR

Signature : William George HORNER d'après  
Period : 19th century  
Condition : Bon état  
Material : Cardboard  
Diameter : 17 cm  
Height : 25 cm

### Description

Small zoetrope circa 1850. Based on an invention by William George Horner in 1834. Cardboard body pivoting on a turned wooden baluster base. This device is the ancestor of cinema. By rotating the drum with a strip of images inside, the illusion of movement is obtained through the slits (persistence of vision). With 12 animation strips in its original condition.
