

Sheet Metal Clock, Restoration Period

330 EUR

Period : 19th century

Condition : Etat d'usage

Material : Painted metal

Diameter : 28 cm

Height : environ 40 cm

Description

Charming painted sheet metal clock, decorated with a garland of gilt leaves. The ball and suspension ring are brass. The white enamel frame has some chips, the glass protecting the frame is missing, and the original clock mechanism certainly needs checking. There is some wear to the decoration on the lower part. The unusual small diameter of 28 cm adds to the charm of this clock. Restoration period, circa 1820-1840. Shipping within France via Colissimo with tracking: EUR30
