Description

A very beautiful table lamp made by Hettier & Vincent, renowned bronze and glassmakers of the Art Deco period, based on Rue des Tournelles in Paris. It comprises a hexagonal shade of molded pressed glass with a stylized geometric design (radiating and fan-shaped motifs), and a solid bronze base with its original patina, resting on a hexagonal plinth that echoes the glass shade's decoration. The central column is adorned with relief motifs typical of the Heights: approximately 37 cm. A very pleasing balance between glass and bronze. The lamp is in excellent condition. Rewired.
