

Large Study Of Male Anatomy, Sanguine Drawing, 18th Century.

290 EUR

Period : 18th century

Condition : Bon état

Material : Paper

Width : 33,5 cms

Height : 48 cms

Description

Beautiful sanguine drawing, slightly faded, academic study of a seated nude man in motion. Interesting twist of the torso. A light cleaning will be carried out. This study may be a counterproof, which adds to its interest. France, 18th century.
