Architectural Chest Of Drawers In Light Mahogany, Circa 1830, Sweden

2 400 EUR

Period : 19th century

Condition : A restaurer

Width : 101cm

Height : 92cm

Depth : 54cm

Description

Neoclassical commode of architecturally perfect proportions. A fine example of the early 19th-century rationalist ideal applied to furniture, the execution in light mahogany and yellow wood veneer enhances its monumental character. Some restoration of the edges and wear to the veneer needs to be completed and is included in the price.
