Foundry Crucible In "metallic" Tones, 12.5 Cm High

69 EUR

Period : 20th century

Condition : Bon état

Diameter : 10

Height : 12,5

Description

A remarkable piece of curiosity, notable for its mineral power and authentic metallic hues. This refractory clay crucible bears the marks of fire: a spectacular crystallization of slag creating tormented reliefs. Its unique appearance offers deep graphite nuances with iridescent reflections and amber vitrified drips, evoking volcanic material. A true raw sculpture, ideal as a small planter or candle holder. Unique piece. Free shipping within France and Corsica.
