Depth : 75

Description

A refined 1920s Art Deco side table in birch veneer, professionally refinished to restore its warm glow and crisp geometry. Compact yet cleverly designed, the piece embodies the functional elegance that defined early Deco furniture, where streamlined forms, subtle ornament, and intelligent storage solutions came together in harmonious balance.

The tabletop showcases the characteristic shimmer of birch veneer, arranged in a patterned layout that catches the light with soft, golden movement. Beneath it sits a practical drawer with clean horizontal lines, paired with an open compartment that offers additional storage or display space. On one side, a pull-out leaf extends the surface, transforming the table from a modest

accent piece into a more generous working or serving area, an ingenious feature typical of the period's focus on adaptability.
The cylindrical legs anchor the table with quiet confidence, their tapering form adding a touch of vertical rhythm. The recent refinishing highlights the natural beauty of the wood while preserving the table's vintage character. Minor age-appropriate traces remain discreetly visible, consistent with a well-kept piece from the early 20th century.

Art Deco furniture of the 1920s embraced modernity without abandoning craftsmanship. This table reflects that transition: geometric clarity softened by warm materials, and practicality elevated through thoughtful design. Its compact proportions make it ideal for contemporary interiors where versatility and character are equally valued.

Whether used as a bedside table, a living-room accent, or a functional writing surface, the piece brings a touch of early Deco sophistication. Its combination of birch veneer, clean lines, and multi-purpose features makes it both visually appealing and highly usable.
