LE PLUS BEAU CATALOGUE D'ANTIQUITES

# Folk Art Cane

1 250 EUR

Period : 19th century

Condition : Très bon état

Material : Solid wood

Height : 89 cm

## Description

The walking stick has a sinuous, curved structure. The upper part of the stick is adorned with carved figures in relief, representing human faces. These figures are highly detailed, showing delicate facial features. The carvings are meticulously executed, with smooth areas alternating with more textured areas that add an extra dimension to the object. The different sections of the wood are polished in a way that brings out the beauty of the material while accentuating the carved elements.
