Description

Large Anduze jar from the Boisset-Rodier workshop. The model features a flame-like decoration in green, yellow, and purple. This large jar measures 85 cm in height and 72 cm in diameter. The entire lower part of the jar is in good, sound condition. Note that part of the neck has been restored. A section is cleanly detached and can be properly restored. The decoration displays a beautiful patina, with some inscriptions missing due to the jar's age. The Boisset workshop, associated with Rodier, allows for dating the jar.
