Description

Dimensions: 16cm x 11cm x 9cm. Small 17th-century style box, made from softwood, inside lined with domino paper, outside decorated by a rather rustic straw marquetry, which appears to have been designed on paper and then glued in strips onto wood. A small key (which does not work) is included. Box is very pretty; small boxes of this type are not often seen, late 18th century or shortly thereafter. Regarding its condition, it appears to be good. 5 to 8% of the original straw is missing, but in small pieces, mainly on sides There is of course some wear; and you have to look closely to see these missing pieces. They can be seen in our photos. Folk little metal fittings.
