Description

A delightful pair of large Restoration period candlesticks converted into lamps. Made of bronze with a double patina, brown and gold, they are finely chased and guilloché. Their circular bases are adorned with bunches of grapes and vine leaves, and their fluted stems are topped with a stylized floral basket. To preserve their authenticity and integrity, they have not been drilled. The electrical cord therefore exits externally. As your needs change, you can easily remove the mounting to return the candlesticks to their original state. New wiring: Lampshades with their protective plastic, high-quality twisted electrical cord sheathed in black fabric, black chrome E14 screw sockets, plugs, and switches. Their understated black cotton lampshades, perfectly matching them, complement them
