Description

We present this collection of photographs of the Lyon-based painter Tony Tollet (1857-1953), who died 73 years ago. All these photos come directly from the artist's descendants and have been in my possession for over 30 years. We would like them to end up in a Lyon museum (why not?) or with a collector of the Lyon painter's work. Free shipping within Lyon and France; please contact us for other destinations. (E26)
