

## Italian Biconvex Priming Bottle

1 400 EUR

Period : 17th century

Condition : Bon état

Material : Metal

Length : 11.5cm

Height : 17cm

### Description

A biconvex primer bulb made entirely of steel. It has two eyelets for attaching a wrist strap and a compression spring tip. The obverse is decorated with a chased motif, the reverse is smooth.

Probably originating from the Brescia region, given its all-steel construction and chased decoration.
