

Antique Carved Architectural Door - 17th/18th Century, Solid Wood

1 900 EUR

Period : 17th century

Condition : Très bon état

Material : Solid wood

Description

Antique architectural door in carved wood, probably from the late 17th or 18th century, in the Baroque style. Superb work of carving with turned columns, architecturally designed central niche and pediment adorned with a cherub's head (putto), typical of the noble interior decorations of this period. The piece boasts rich ornamentation and beautiful proportions, offering a strong decorative impact. The door has recently been professionally sandblasted, highlighting the relief and quality of the antique solid wood while preserving its patina and character. A truly beautiful decorative piece, ideal for wall decoration, a characterful interior, a shop, or an interior design project. Dimensions: Height: 167 cm Width with base: 73 cm Door thickness: 2.5 cm Total thickness with base: 14 cm Condition:
