

Painted Sheet Metal Hot Water Bottle Lamp

390 EUR

Period : 20th century

Condition : Bon état

Material : Painted metal

Description

A charming, decorative bouillotte lamp dating from the late 19th century, crafted from polychrome painted sheet metal in a beautiful patinated red tone, enhanced with delicate gilt trim. Inspired by the bouillotte lamps used on gaming tables from the 18th century onwards, this piece offers a characterful decorative interpretation. The central metal structure supports two candle holders, surmounted by two lampshades of perforated sheet metal. The perforated upper sections allow the light to diffuse gently, creating a warm and intimate atmosphere. This lamp is not electrified: it is designed to hold decorative candles, true to the spirit of period lighting. The piece rests on a matching circular base, and displays a beautiful antique patina that testifies to its history. Offered
