Description

Solid wood sculpture created by the artist Bernard Grassias. This organic work is distinguished by the fluidity of its lines and the technical mastery of the direct carving technique. Characteristics of the work: o Form: Abstract composition with generous, intertwined curves, offering radically different perspectives depending on the angle of observation. o Material: Wood with a warm, visible grain, enhanced by a satin finish that is exceptionally smooth to the touch. o Prestigious base: The work rests on a black marble base with geometric and faceted lines, creating a striking contrast with the suppleness of the wood forms. Dimensions: Height: Width: Depth: Depending on the distance, I may be able to deliver. Mickaël De Santos Tel: +33 6 17 26 65 53 Saint-Ouen Flea Market - Biron Market 2 & 3 - Workshop
