Height : 77

Depth : 47

### Description

A set of four S28 model chairs in solid elm, designed by Pierre Chapo in the mid-1960s and produced by Atelier Chapo in France. Each chair rests on a solid wood frame assembled according to Chapo's signature cabinetmaking principles, employing thick sections and visible joinery. The rectangular seat and slightly inclined backrest offer a good balance between comfort and formal rigor. The dense and robust elm wood reveals a deep grain and a natural patina acquired over time, highlighting the authentic and functional character of the chair. The S28 model is part of Pierre Chapo's production of domestic furniture, designed for everyday use around the table, while also asserting a strong and lasting architectural presence. Produced by Atelier Chapo, France
