

18th Century Polychrome Carved Wood Display Case

1 480 EUR

Period : 18th century

Condition : Bon état

Material : Painted wood

Width : 55,5

Height : 71

Depth : 34,5

Description

A delightful polychrome carved and molded wooden display cabinet. It has four doors, the panes of glass are later additions. Beautiful period ironwork. It rests on four small ball feet. Perhaps it originally contained a clock mechanism...

Nevertheless, a charming little piece of furniture in its original condition. Alsace or Bavaria? First half of the 18th century.
