## Description

Stunning centerpiece, a decorative object in Murano glass dating from the 1960s in the style of Poliarte. Remarkable for its sculptural presence and impressive weight (14 kg). The piece is composed of an assemblage of 13 intertwined S-shaped elements, crafted from thick (5 cm) glass in a very deep, almost nocturnal blue. The glasswork captures the light and creates subtle reflections, giving the piece an elegant yet dramatic dimension. More than just a centerpiece or decorative object, it is a true decorative sculpture, typical of mid-20th-century Italian design, ideal for a large table, a console, or a contemporary interior seeking a statement piece. Excellent condition. Shipping to France and the rest of Europe: rates upon request.
