Description

Oil on canvas depicting a mother with children.  
Artist: Louis Soonius (1883-1956), a student at the Royal Academy of Art in The Hague and a member of the Haagse Kunstkring. He is well known for his scenes of everyday life, which were highly regarded in the Netherlands. The painting depicts a delicate family interior scene: a seated mother cares for a child while another little girl plays in front of a window illuminated by natural light. The composition is characterized by warm, luminous tones, typical of the Dutch tradition of the first half of the 20th century. The painting is housed in an elegant and original gold frame. Overall dimensions: 100x 85 cm
