### Description

The Model 48 armchair, designed by E. Knudsen and produced by cabinetmakers Jensen & Lykkegaard in Odense, is a fine example of Danish mid-century organic design and craftsmanship. Well proportioned, it features compact, sculptural floating armrests in teak, contrasted by a wide cognac leather seat. The woven cane backrest adds texture and balances the warmth of the wood and upholstery. Crafted in solid teak with cane and new leather upholstery, the chair has been carefully restored and remains in very good condition, showing only discreet patina consistent with age and use. An elegant standalone piece, also suitable for use around a dining table or at a desk. Seat height : 46 cm
