

## Marine Chest Camphor

550 EUR

Signature : À définir

Period : 19th century

Condition : Très bon état

Material : Solid wood

Length : 58

Width : 30

Height : 30

### Description

A very beautiful marine chest made of camphor wood, a very high-quality wood! Often used to transport rare and precious goods, thanks to its protective nature against wood-boring insects and its resistance to rot and humidity. This particular chest is quite large, measuring 58 cm long by 30 cm high and 30 cm wide. It retains its original condition and antique patina. It has a brass lock. A truly fine piece of cabinetmaking! Visually appealing with its signs of age, and fully functional!
