Male Plaster Bust

1 700 EUR

Period : 19th century

Condition : Bon état

Material : Plaster

Description

Plaster sculpture depicting John Michael Shum, 19th century. The character is represented with his head slightly turned and an intense gaze, with marked physiognomic features and short hair with stylized side locks.The bust wears a draped robe with large soft folds that fall on the chest, recalling sculptural models of classical tradition. The work rests on a circular molded base which completes the composition.
