Description

Pair of carved and gilded wooden shelves with "Mori" mask - 19th century Elegant and rare pair of shelves crafted from finely carved and partially gilded wood, featuring a refined, classically styled ornamental motif. At the center of each shelf is a striking relief mask with a dark "Moretto" face, creating a striking color contrast with the gilding and light patina of the wood. The shelves feature rich scrollwork and plant motifs, typical of Baroque and Neo-Baroque styles, lending great movement and depth to the composition. Ideal as decorative wall elements or as small decorative shelves in classic or eclectic settings. The patina and signs of aging contribute to the authentic charm of the pieces. Period: 19th century Material: Carved and gilded wood with applied mask Condition: Good overall condition
