Width : 25

Height : 35

Depth : 17

Description

Angelo Maineri (Varese, 1962)

Preparatory model for the monumental sculpture L'uomo e lo sport, created in 1999 for the "Meraki" sports centre and installed in Marnate, in the province of Varese.

The work is executed in bronze using the lost-wax casting technique and is set on a black marble base of pyramidal form. The composition depicts a male figure suspended in a horizontal position while performing an athletic gesture. The anatomical rendering is accurate, with particular attention given to the outstretched arm in the act of throwing the ball.

Dimensions of the bronze: 35 × 17 × 15 cm; total
