900 EUR

Period : 20th century

Condition : Etat d'usage

Length : va

Description

Original pair of hand-shaped armchairs from the 1980s. Upholstered in fuchsia velvet, they consist of a slightly conical base supporting the seat, which swivels. The backrest is composed of five "fingers" that wrap around the back, and the entire piece is covered in fuchsia velvet.

Handcrafted, likely a special order; the fabric is not torn but shows some signs of soiling. An original and comfortable model in good condition and still usable.
