

3 Movements 18th

500 EUR

Period : 18th century

Condition : Prévoir restauration

Material : Metal

Description

A very fine set of three 18th-century clock movements with brass and tin dials. They are dated on the upper medallion to the late 18th century. They are in their original, as-found condition; all parts are present (except for the bell on one), but they require restoration. No pendulum, no weights.
