Description

An important pair of finely chased gilt bronze wall sconce bases decorated with foliage. According to our research, these are the bases for two monumental sconces depicting cherubs or mermaids holding a candelabrum (see illustration of a comparable model). Remarkable period chasing and mercury gilding with superb interplay of matte and burnished tones across both pieces. French work from the Restoration period (1814-1830). Length: 20.5 cm. Base width: 19.5 cm. Good overall condition, with some cracks and a dent at the top. Some traces of verdigris. As is.
