Description

An elegant and refined meerschaum pipe, finely carved and depicting a charming pastoral scene with a seated shepherd and sheep, crafted with great attention to detail. The figure, modeled in relief, recalls the classical Greco-Roman motifs typical of artistic pipes between the 19th and early 20th centuries. The pipe features the natural yellow-amber color that meerschaum acquires over time with use. It is preserved in its original molded case. 13.5 x 6.5 cm
