Description

Small 18th or 19th century waistcoat chain seal, from rock crystal with a three-sided cut prism, rotating on its central axis. Two of faces are richly engraved with a grand style coat of arms, which is reflected on the plain face. Superb.

Mount consists of a hoop and two reinforcements that meet on suspension ring, which bears a 14k gold hallmark, probably German (photo).

Dimensions: approximately 25mm x 20mm x 15mm. Engraved crystal is in good condition, with a trace of soldering on bail (photo).

Provenance: sold by a German auctioneer. Buy it now, payable by credit card or PayPal. - eclectic - We are not experts, but have been in the business for over 50 years. Hassle-free refund in case of disappointment. Siret: FR24.430113233. Invoice and Certificate are included with each shipment.
