### Description

Pair of Limoges Enamels Signed Bernard Vergnaud - Landscapes - Circa 1950. A pair of miniature painted enamels from Limoges, both signed Bernard Vergnaud - Limoges. The two works, created by the same artist, depict two decorative landscapes: a Mediterranean scene with a pergola opening onto the sea, enlivened by flowerpots and stone architecture, and a wooded landscape by the water, rendered in a luminous atmosphere. These enamel plaques are made according to the Limoges enamel tradition, a technique emblematic of the city and highly prized in the mid-20th century for decorative paintings. The miniatures are presented in their original molded and gilded wooden frames with hammered decoration, typical of the 1950s.  
Signature: Bernard Vergnaud - Limoges. Period:
