### Description

An elegant Louis XVI style console table in carved wood and gilt stucco, resting on four tapered and fluted legs ending in connecting blocks. The richly carved apron features a refined decoration of foliate scrolls, florets, and pearls, typical of the Louis XVI ornamental repertoire. The four legs are joined by a delicately curved X-shaped stretcher, centered by an elegant carved Medici vase, bringing balance and refinement to the whole. The top is made of molded Arabescato white marble with beautiful natural gray veins, which harmoniously highlights the gilding of the structure. This decorative console table, both elegant and architecturally structured, can find its place in an entryway, a living room, or as a side table. Work from the late 19th to early 20th century in the Louis XVI style. Dimensions:
