

Hanots Glassworks Art Deco Night Light "butterfly Ball" And Nickel-plated Bronze 1925 - 1930

680 EUR

Signature : Verreries des Hanots

Period : 20th century

Condition : Très bon état

Diameter : 18 cm

Height : 21 cm

Description

A very beautiful molded-pressed glass ball nightlight produced by Verreries des Hanots. This model, known as the "Butterfly Ball," is referenced as No. B 4 in the glassworks' commercial catalogs but is never signed. It features a decoration of daisies and butterflies in flight. The globe has a very fine relief with a magnificent frosted/repolished effect on the raised areas of the decoration. Note its diameter of 18 cm, compared to the more common 15 cm. The octagonal nickel-plated bronze base echoes the decorative motif of the ball, featuring butterflies and flowers. The base is beautifully crafted and finely executed. This rare piece is entirely original, including the wiring and tightening screws, which gives it a unique character. Dimensions: Total height with base:
