### Description

A lovely Art Deco pressed-molded glass vase with a seascape design by Marius Sabino. A beautiful piece, especially in this rare lilac color. The rich molded decoration has a beautiful sheen and a satiny texture that reflects light particularly well. Its spherical shape with a small, straight neck is very graphic and characteristic of the period. 19.5 cm high, 18 cm wide. In perfect condition, signed "Sabino France" with a stylus under the base, circa 1925. A timeless and classic vase.
