Description

Sculpture signed Géo Maxim, "The Girl with Greyhounds," Length 79 cm, Height 44 cm, Width 16 cm. Georges Maxim (1885-1940). The spelter sculpture is entirely original. It has acquired its patina. There is some wear to the patina. Two cracks are visible on the marble sides; this does not affect the sculpture's stability, as the marble slabs are attached to the base. The girl's foot has been restored, but this is barely noticeable. The piece remains of very high quality. The patina is beautiful, and everything is from the period.
