Description

ART NOUVEAU BRONZE 1890/1910 signed LEVASSEUR, NATURALIST BROWN PATINA: Large decorative bronze flask with a brown patina and a double, sinuous handle in the naturalist style. The relief decoration depicts a crouching nude female figure within an organic frame, flanked by two young children. A central mascaron, suggests it was originally a wall fountain or a hydraulic ornament. The modeling is supple and typical of the Art Nouveau style, with fluid treatment of volumes. The work is signed Le Vasseur, a sculptor active in the late 19th and early 20th centuries.
