Description

A spectacular cascading pendant light composed of three globes by Peill & Putzler, emblematic of the Space Age aesthetic of the 1970s. This light fixture is distinguished by the remarkable craftsmanship of its glass: each transparent globe is encircled by a wide band of mirrored chrome, creating a unique interplay of reflections and transparency. Its clustered structure allows for playing with heights to define the space, whether in a grand entryway, above a dining table, or in a living room corner. A word from the "Les Merciers" gallery: This piece is a true visual statement for a contemporary or vintage interior. We take extreme care in packaging our light fixtures: each globe will be individually protected with professional materials for safe shipping. Insured delivery with tracking throughout
