Description

A beautiful lamp formed from a 17th-century Spanish bronze candlestick mounted into a lamp. It has its parchment lampshade that has been made in our workshop. Very beautiful lampshade featuring a period frieze on the upper and lower sections. This very elegant Renaissance candlestick has a very nice turning and ending in lion's paw feet. The candlestick has been electrified by us, and we handmade the lampshade in our own workshop using traditional parchment. It is in perfect condition. We would be willing to sell it without the lampshade. Delivery available in Belgium, France, and internationally. Viewable in our 2500m² showroom at 41 Rue Henri Wafelaerts, 1060 Brussels, Belgium. More information and photos available upon request.
