

## Autochrome "bouquet Of Hollyhocks" Circa 1920

200 EUR

Period : 20th century

Condition : Très bon état

Material : Glass

### Description

A very beautiful autochrome of hollyhocks in a saucer. Size 9 x 12 cm. The autochrome is particularly interesting for a floral subject because it allows one to capture the delicacy and variety of colors of the flowers, with a unique, almost painterly rendering reminiscent of Impressionist painting. "It is not a snapshot, but the reproduction of a frozen and composed moment, illuminated by an impression, a sensation of color generated by multiple touches of pigment modeled by the brush of light."
