Description

Oil on canvas by HW Cavatty, young child in front of a portrait, 19th century. This scene is very pleasing, natural, and untouched, just the way we like them. A young child is admiring what appears to be a painting, with 19th-century miniatures hanging on the wall, portraits, wood paneling, a rich armchair, a cashmere rug, and a carpet behind. The whole scene is in a beautiful frame with gold leaf gilding. There are a few minor imperfections on the frame; for the more discerning, there are craquelures in the painting and a few very small tarry patches. The entire piece is 19th century, executed with great precision, and the scene is truly delightful. For condition details, please carefully examine the photos. The photos are an integral part of the description. Frame dimensions: Height: 56.3 cm
