Description

A beautiful bronze sculpture with a deep brown patina, depicting a jovial figure of Asian inspiration, seated and playing a traditional instrument. His finely chiseled face, with its smiling and expressive features, conveys an atmosphere of serenity and happiness. He is accompanied by a large bag richly decorated with symbolic motifs in relief, evoking abundance and prosperity. This ingeniously designed bag opens to reveal an interior compartment, suggesting it may have served as a secret box or incense container. The quality of the casting and chasing is remarkable: the fine details in the drapery, the precision of the hands, and the masterful handling of volume. The warm, nuanced, antique patina perfectly highlights the reliefs and gives the piece a strong decorative presence. This sculpture
