Description

H. 16 cm - W. 20 cm - D. 11.5 cm. Weight of the pair: 2.5 kg. A superb pair of finely carved walnut wall brackets, exemplifying the decorative refinement of the 19th century (late 19th/early 20th century). Hand-carved from dense, warm walnut, they display a delicate ornamental vocabulary: vegetal scrolls, stylized foliage, and subtly patinated reliefs that capture the light. Balanced and elegant, these small brackets offer an ideal sculptural presence to enliven a wall, frame a work of art, or structure a classic or contemporary décor. A harmonious, decorative, and rare pair, ready to enhance any interior. Charming objects as well as testaments to refined craftsmanship, these wall sconces bring a touch of authenticity and distinction to any interior, from the most classic to the most contemporary.
