Description

This endearing SFBJ doll has a bisque head in perfect condition (no hairline, no crack, no restoration) with an open mouth, sleeping eyes with eyelashes. She still has her original luxuriant human hair wig, marked "13". Her head is marked 23 France SFBJ Paris 13 "23" means that the doll was made in 1923. Her original jointed body is in excellent condition and marked "13" in its back. She is dressed with her factory chemise adorned with its original "Jumeau" tag and her original white socks and shoes. It seems that this doll was never played with since her condition is so neat and never removed from her box. An interesting anecdote, we found a newspaper page from "L'express du Midi" inside the box dated from April 24th 1924! Dimensions: 27 1/2" high (70cm) Pictures are part of the description. Feel
