Description

Magnificent bracelet in Bresse enamels set in an openwork sterling silver mount. A 12th-century piece characteristic of the goldsmithing expertise of the Bourg-en-Bresse region, a symbol of regional heritage. Composed of seven medallions of decreasing size, this magnificent bracelet showcases the technical skill of the master goldsmiths of the period: the use of enamel with gold inclusions, and the setting of multicolored gemstones. A museum-quality piece! Each medallion features different colors and motifs; in the light, each material reflects its brilliance! Hallmarked with the crab mark for sterling silver.
