Description

[GENEALOGY] - ROTH (Christian Frederick William) - Essay on a genealogical distribution of the principal sciences and arts. According to the detailed explanation of the system of human knowledge in the preliminary discourse of the editors of the Encyclopedia published by Diderot and D'Alembert. Weimar, Roth, 1769; 930/625 mm, 1 sheet, cut into 18 and glued and folded on cloth. Genealogical tree of human knowledge.

The author begins with the history of understanding, reason, and imagination; then each sheet is a science, starting with mathematics and continuing with cosmology and meteorology. The tree ends with pharmacy, heraldry, military art, and diplomacy.
